For life-threatening emergencies, call 911.

Building on a 50-year legacy of caring for the community, Memorial Hermann Memorial City has emerged as an advanced, national award-winning medical center, offering high-level care typically found only in the Texas Medical Center. A 444-bed facility, Memorial Hermann Memorial City has earned accolades and recognition for patient safety and exemplary clinical quality. With a medical staff of 1,500 affiliated physicians representing 100 specialties, Memorial Hermann Memorial City explores new, innovative treatments each day that are changing health care and improving quality of life for our patients. Memorial Hermann Memorial City is part of the Memorial Hermann Health System, with over a century of caring for the families of Greater Houston.

Magnet-Recognized Nursing Facility

Memorial Hermann Memorial City is the first hospital in west Houston to receive one of the highest levels of recognition for nursing excellence, earning designation as a Magnet Recognition Program by the American Nurses Credentialing Center (ANCC).

24-Hour Emergency Center

Our Emergency Center is staffed by affiliated board-certified emergency medicine physicians, advanced practice providers, nurses and technicians specially trained in emergency care. Memorial Hermann Memorial City also offers pediatric and OB emergency services.

Level IV Trauma Center

Memorial Hermann Memorial City is designated by the Texas Department of State Health Services as a Level IV trauma center, providing advanced trauma life support, evaluation, stabilization and diagnostic services. When clinically appropriate, patients are transferred quickly to a higher level of care within Memorial Hermann's network of trauma centers.

Amputation Prevention Center® and Wound Care

The Amputation Prevention Center® and Wound Care - Memorial City is dedicated to optimizing outcomes for patients with non-healing wounds and preventing limb loss in patients with chronic, non-healing wounds.

(over)

**MEMORIAL
HERMANN**
Memorial City
Medical Center

Our approach to wound care is comprehensive, coordinating traditional and advanced therapies and techniques that reduce healing time and improve healing rates.

The team features a dedicated, affiliated physician plus nurses and technicians with advanced training in wound care and hyperbaric oxygen (HBO) therapy.

Bobetta Lindig Breast Care Center

The Bobetta Lindig Breast Center is a spa-like facility that offers the full continuum of breast health services, from preventive care and early detection to accurate diagnosis, personalized treatment and ongoing emotional support. Advanced mammography services, as well as, stereotactic biopsy services, breast magnetic resonance imaging (MRI) and breast ultrasound are available. Dedicated, affiliated breast radiologists are onsite and interpret digital mammograms, providing quicker, more accurate readings for patients.

Cancer Center

From routine cancer screenings to complex treatment, the Memorial Hermann Cancer Center–Memorial City offers specialized care and a full continuum of services with a focus on the whole patient. Accredited with commendations by the American College of Surgeons Commission on Cancer (CoC), the Cancer Center brings together a team of experienced and skilled, affiliated cancer specialists who work together for effective diagnosis, treatment, care and rehabilitation of patients. Patients have access to a team of oncology specialists, which may include affiliated surgeons, medical oncologists, radiation oncologists and radiologists. Additionally, our dedicated Oncology Nurse Navigator helps patients and caregivers by identifying and coordinating support services, making appointments and resolving insurance issues.

Memorial Hermann Cancer Center–Memorial City has earned the National Accreditation Program for Rectal Cancer accreditation, a collaboration between The OSTRiCh Consortium (Optimizing the Surgical Treatment of Rectal Cancer) and the CoC to ensure patients with rectal cancer receive appropriate care using a multidisciplinary approach.

Our Center treats all types of cancer, including:

- Breast
- Colorectal
- Gynecological
- Urological (kidney, bladder, testicular and prostate)
- Head and neck
- Kidney
- Lung
- Lymphoma
- Myeloma
- Brain and spine
- Thyroid

Lindig Family Cancer Resource Center

Thanks to the generosity and support of Houstonians Bill and Bobetta Lindig and the employees of Memorial Hermann Memorial City, the Lindig Family Cancer Resource Center is available to patients, their loved ones and the community to provide information, emotional support and resources to help in the fight against cancer. The Center serves as a free resource for education, as well as emotional, spiritual, nutritional and genetic support groups, services and activities for cancer patients, survivors and families, regardless of where treatment is received.

Children's Services

Emergency Center

The Emergency Center at Memorial Hermann Memorial City is equipped to care for children experiencing a medical emergency. The medical team consists of emergency medicine physicians, nurses and pharmacists who specialize in providing treatment to children of all ages and utilize equipment and supplies made specifically for children. If a higher level of care is medically necessary, pediatric patients can be transported to Children's Memorial Hermann Hospital in the Texas Medical Center or one of our other Children's Memorial Hermann locations by our Neonatal and Pediatric Critical Care Transport Team via ground ambulance or Memorial Hermann Life Flight®.

Kate Lindig Neonatal Intensive Care Unit (NICU)

As a Texas Department of State Health Services Level III Neonatal Intensive Care Unit (NICU), our Kate Lindig NICU provides highly specialized care for babies regardless of gestational age. High-risk infants receive continuous monitoring, observational support and specialized medical care. Skilled affiliated neonatologists are available 24 hours a day. In addition, our NICU is equipped with NicView™, a camera system to allow parents, family and friends to view their infant in a live stream through a secure online portal.

Special Care Nursery

The Special Care Nursery is Level II NICU designed for babies who are experiencing temporary concerns, such as mild respiratory distress or an infection requiring antibiotics.

Outpatient Medical and Surgical Care

Memorial Hermann Memorial City provides access to affiliated pediatric physicians in a broad range of specialties, delivering subspecialty care for patients when needed. Additionally, affiliated pediatric otolaryngologists (ENTs) and pediatric urologists work with our anesthesia team to provide outpatient surgical services.

Diabetes Management Program

Memorial Hermann Memorial City offers a unique program for patients diagnosed with type 1 diabetes, type 2 diabetes, prediabetes or gestational diabetes. Our program is approved by the American Diabetes Association and is taught by Certified Diabetes Care & Education Specialists.

Digestive Health Center

A patient-focused facility, our 12,000-square foot Digestive Health Center streamlines care by connecting patients to expert physicians and the latest digestive health services available in one, easy-to-access facility. Patients have access to specialized care for a wide range of digestive health issues, from screening and treatment options to ongoing disease management.

The Center has been recognized by the American Society for Gastrointestinal Endoscopy (ASGE) for being dedicated to promoting quality in endoscopy.

Heart & Vascular Institute

The award-winning Heart & Vascular Institute at Memorial Hermann Memorial City combines research-driven innovation and a team approach to open blockages, repair valves and aneurysms, correct irregular heartbeats and more. Our program offers patients one of the most superior cardiovascular care facilities in the nation with advanced diagnostic screenings, cardiac catheterization labs, interventional radiology suites, electrophysiology labs and minimally invasive hybrid endovascular surgical suites. Our affiliated board-certified diagnostic, interventional and electrophysiology cardiologists, as well as cardiovascular and thoracic surgeons treat close to 11,000 patients annually. The Institute is consistently recognized by national third-party organizations that measure quality for low complication rates and optimal patient outcomes.

The Heart & Vascular Institute at Memorial Hermann Memorial City is Chest Pain certified by The Joint Commission and meets stringent criteria for rapid response when seconds count.

Cardiac Surgery

The highly experienced cardiothoracic and vascular surgery team at the Institute offers a wide range of advanced surgical options, from coronary bypass surgeries on beating hearts (without a heart-lung machine), to minimally invasive replacement of the heart's aortic valve. Many surgeries, including heart valve replacement, surgical treatment for atrial fibrillation (AFib), transcatheter edge-to-edge repair (TEER) of the mitral valve for mitral regurgitation, coronary bypass graft surgery (CABG) and video assisted thoroscopic surgery (VATS) are performed using a multitude of minimally invasive and robotic-assisted surgical techniques. The Institute is one of a few facilities in the country offering the entire spectrum of heart surgery, including minimally invasive plus robotic-assisted cardiac surgery.

Electrophysiology

Using advanced cardiac catheterization labs, our experienced team of affiliated interventional cardiologists and electrophysiologists treat electrical problems of the heart, such as atrial flutter and AFib, using advanced heart-mapping technology to pinpoint conduction abnormalities in the heart and identify irregular electrical pathways causing heart rhythm abnormalities.

Vascular Care

The Institute provides advanced vascular and endovascular care including non-invasive diagnostic testing, percutaneous interventional vascular treatments such as angioplasty and stents, surgery for conditions such as abdominal aortic aneurysm, deep vein thrombosis, peripheral arterial disease, venous insufficiency and carotid stenosis. The Institute is equipped with a state-of-the-art hybrid endovascular surgical suite designed specifically for vascular and cardiovascular patients, allowing flexibility and speed in the treatment of patients with the most complex cardiac and vascular conditions.

Cardiac Rehabilitation

The cardiac rehabilitation program is a phased, multidimensional, medically supervised program designed to help patients recover as quickly as possible from heart disease. The program has been granted full certification by the American Association of Cardiovascular and Pulmonary Rehabilitation (AACVPR).

Bariatric surgeons affiliated with Memorial Hermann Memorial City perform nearly 1,000 minimally invasive bariatric procedures annually, including revision and reversal surgeries, more than any other facility in Houston.

Bariatric Center of Excellence

Memorial Hermann Memorial City has been recognized as a fully accredited Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program (MBSAQIP) Center by the American College of Surgeons. Memorial Hermann Memorial City has also been recognized as a Center of Excellence by UnitedHealth Optum Bariatric Resource Services, Blue Cross Blue Shield Blue Distinction® Centers and Aetna Institutes of Quality.

Orthopedics & Sports Medicine

Center for Advanced Orthopedics

Occupying three floors of the Memorial Hermann Tower, the Center for Advanced Orthopedics is a dedicated orthopedic facility designed to provide patients with exceptional clinical care in a comfortable, focused environment. The Center is the surgical home for patients of the Memorial Hermann Joint Center and the Memorial Hermann | Rockets Sports Medicine Institute - Memorial City. Affiliated board-certified physicians specialize in treatment of bone, joint and soft tissue issues of the knee, hip, foot and ankle, shoulder, elbow, and hand. Orthopedic trained nurses and physical therapists are focused solely on orthopedic patients.

Rockets Sports Medicine Institute

The Memorial Hermann | Rockets Sports Medicine Institute provides a comprehensive range of sport-specific care for athletes of all ability levels and all ages. In addition to primary treatment for sports injuries, we offer comprehensive specialty care surrounding more complex cases, human performance, sports medicine and concussion. The Institute is staffed by physical therapists and affiliated sports medicine fellowship-trained orthopedic surgeons who specialize in treating sports-related injuries.

Joint Center

Our joint replacement program provides the latest minimally invasive and computer-assisted techniques for knee, hip and shoulder replacement. The program has received The Joint Commission's Advanced Certification for Total Hip and Knee Replacement for elevating the quality, consistency and safety of joint replacement services and patient care.

Pelvic Floor Health Center

The Pelvic Floor Health Center is the first multidisciplinary diagnostic and treatment center in west Houston focusing on treating men and women who suffer from a pelvic floor disorder. Affiliated specialists provide a complete range of treatments for urological issues such as urinary incontinence, pelvic organ prolapse, fecal incontinence or other problems of the lower urinary and gastrointestinal tracts. The Center also offers programs for those who plan to undergo a prostatectomy or gender affirmation surgery. Patients have access to a comprehensive diagnostic program, state-of-the-art imaging technology and a variety of noninvasive treatment options, all in one location.

TIRR Memorial Hermann*

TIRR Memorial Hermann Outpatient Rehabilitation - Memorial City provides outpatient rehabilitation services for adults and children with brain and spinal cord injuries, amputations, orthopedic injuries, Parkinson's disease and other neurological diseases and disorders, as well as patients recovering from cancer, COVID-19 and neurological, orthopedic or bariatric surgery. TIRR Memorial Hermann has been ranked among America's Best Hospitals by *U.S. News & World Report* for decades.

** TIRR is a registered trademark of TIRR Foundation.*

Women's Memorial Hermann

Labor & Delivery Services

As a Texas Department of State Health Services Level III Maternal Facility that features superior clinical equipment and amenities and an integrated, dedicated team of specialty-trained nurses, the hospital offers the most advanced, family-centered obstetrical services in west Houston.

Imaging Center

Memorial Hermann Memorial City provides quality imaging services utilizing the most advanced technology and equipment. The skilled, affiliated imaging professionals at the Center are committed to delivering patients with efficient and accurate imaging results. The Center accepts imaging orders from any referring physician.

Services include:

- CT Scan
- X-ray
- Fluoroscopy
- Nuclear Medicine
- MRI (3.0T)
- PET/CT Scan
- Ultrasound

International Patient Program

The International Patient Program welcomes patients from around the world who seek an initial diagnosis, treatment for a diagnosed disease or disorder, a valued second opinion, or an annual checkup. Experienced affiliated physicians and hospital staff are dedicated to providing comprehensive care and meeting the cultural needs of international patients. The program team speaks a variety of languages. Team members greet and accompany international patients from the moment of arrival to ease the cultural and social transition and provide personalized services.

Neurosciences

Affiliated neurologists, neuroendovascular surgeons, neurointensivists and dedicated neuroscience nursing staff at Memorial Hermann Memorial City provide the most advanced and comprehensive care for neurological disorders and conditions in west Houston. Patients benefit from inpatient and outpatient services, specialized care for complex conditions, state-of-the-art technology, and innovative therapies and techniques.

For stroke patients and others with severe neurological illness, fast access to a dedicated Neuroscience Intensive Care Unit may provide improved neurological outcomes and reduce risk of long-term complications.

The hospital's Neuroscience Intensive Care Unit (ICU) and Intermediate Care Unit (IMU) are staffed 24/7 by intensivists affiliated with UTHouston Neurosciences, all -of whom are fellowship-trained in neurocritical care.

Conditions treated include:

- Strokes
- Aneurysms
- Acute head, neck and spine trauma
- Seizures, epilepsy and status epilepticus
- Infections of the central nervous system
- Benign and malignant brain and spinal tumors
- Surgical interventions including spinal reconstruction, spinal fusions and minimally invasive spine surgery
- Neurological conditions including dementia and Alzheimer's disease, sleep disorders, neuromuscular disorders including Guillain Barré Syndrome and Myasthenia Gravis, and peripheral nerve disorders

Comprehensive Stroke Center

Memorial Hermann Memorial City is accredited as a Comprehensive Stroke Center by DNV-GL Healthcare, the first and only in west Houston. This is the highest designation for stroke care. We also evaluate and treat patients transported from other stroke centers.

NewStart™ Surgical Weight Loss and Medical Weight Management Programs

Memorial Hermann NewStart™ offers both surgical weight loss and medical weight management programs and our team works with you to design a plan tailored specifically to your needs. Our Care Concierge is available throughout your weight loss journey to orient you to the program, assist you with scheduling appointments and get you answers to your questions.

(over)

OB Emergency Center

The Women's Memorial Hermann OB Emergency Center is available for women who are 20 weeks or more in their pregnancy and provides that added reassurance for moms-to-be in the event of an emergency. Our 24 hour Center is staffed by affiliated OB/GYN hospitalists who are available as support for the affiliated OB/GYN medical staff.

High-Risk Pregnancies

Our partnership with McGovern Medical School at UTHealth Houston ensures specialized care for high-risk mothers and babies. The Maternal-Fetal Medicine program offers genetic counseling services and risk assessments to women with a family history of genetic problems as well as counseling and prenatal care for women

who develop high-risk problems during pregnancy or who have a fetal anomaly.

Gynecology and Urology

We offer a wide array of gynecologic and urologic care, including minimally invasive, robotic-assisted and computer-assisted gynecological procedures such as uterine ablation and vaginal hysterectomy. We also offer procedures to treat endometriosis, ovarian cysts, fibroids and abnormal bleeding.

Gynecological Cancers

Affiliated gynecological oncologists provide diagnosis, treatment and management of cancers that occur in any of the female reproductive organs, including ovarian, uterine (endometrial), cervical, vaginal or vulvar cancer.
