Memorial Hermann Sugar Land Hospital brings together the ultimate in health care technology, expertise and healing for families in Fort Bend County. Our affiliated, board-certified physicians and other health care professionals utilize advanced medical technology to address the community's health care needs, from routine outpatient visits to complex inpatient procedures. While quality and safety are the core values at Memorial Hermann Sugar Land, it is the "Family Caring for Family" environment that distinguishes the hospital from others in the area. Memorial Hermann Sugar Land is part of the Memorial Hermann Health System, with over a century of caring for the families of the Greater Houston area.

Baldrige National Quality Award

Memorial Hermann Sugar Land received the 2016 Malcolm Baldrige National Quality Award, the nation's highest Presidential honor recognizing a commitment to excellence through innovation, improvement and visionary leadership.

Magnet-Recognized nursing facility

Memorial Hermann Sugar Land has received one of the highest levels of recognition for nursing excellence, earning designation as a Magnet Recognition Program by the American Nurses Credentialing Center (ANCC).

24-Hour Emergency Center

Memorial Hermann Sugar Land stands ready to meet the needs of critically ill or injured patients throughout the Sugar Land area. Our ERs staffed by affiliated board-certified emergency medicine physicians, advanced practice providers, and nurses and technicians specially trained in emergency care.

Services include:

- Diagnostic laboratory
- Digital X-ray, computed tomography (CT) and ultrasound
- An additional 24-hour ER located nearby within the Memorial Hermann Convenient Care Center in Sienna
- Access to a higher level of care via ground ambulance or by air via or Memorial Hermann Life Flight®

Level IV Trauma Center

Memorial Hermann Sugar Land is a designated Level IV trauma center with the ability to provide advanced trauma life support, evaluation, stabilization and diagnostic services. If needed patients can be transferred quickly to a higher level of care within Memorial Hermann's network of trauma centers.

Children's Memorial Hermann

Children's Memorial Hermann at Memorial Hermann Sugar Land offers specialized care and services for children close to home.

Children's Emergency Center

The Children's Emergency Center at Memorial Hermann Sugar Land is Fort Bend county's first and only dedicated pediatric ER and is ready to care for children experiencing a medical emergency 24 hours a day, 7 days a week.

The medical team consists of affiliated pediatric-trained emergency medicine physicians, pediatricians, nurses and support staff who specialize in providing treatment to children. In addition to pediatric personnel, the Children's Emergency Center has equipment and supplies made specifically for children, access to Child Life specialists to support children during their visit or a procedure, and state-of-the-art technology.

Additionally, should a higher level of care be required, pediatric patients can be transported to Children's Memorial Hermann Hospital in the Texas Medical Center by our Children's Neonatal and Pediatric Critical Care Transport Team via ground ambulance or air ambulance.

Dedicated inpatient pediatric care

Children's Memorial Hermann at Sugar Land is committed to providing high-quality health care to children and offers inpatient pediatric services close to home in Sugar Land. Pediatric low-acuity inpatient care includes:

- Comfortable patient rooms, include window-seat sofa beds for family members staying overnight
- Child Life specialists to enhance each child's health care experience by explaining to children what to expect during hospitalization or how to cope with the illness or injury of a family member
- A Level II neonatal intensive care unit (NICU) with intermediate care for infants who require continuous monitoring and observational support
- Nutrition services, including on-demand room service and family kitchens

Birthing Center

The Birthing Center at Memorial Hermann Sugar Land features private, comfortably appointed labor-delivery-recovery suites equipped with the latest technology and premium amenities. Our affiliated physicians and nursing staff are trained in both normal and high-risk deliveries and newborn care.

- High-risk pregnancy clinic
- Dedicated labor and delivery nurses providing one-on-one care during birthing
- Nurses who are trained breastfeeding specialists
- Affiliated anesthesiologists available 24 hours a day
- Private postpartum rooms where mother and baby are cared for together
- A Level II NICU with 24-hour neonatal provider coverage
- Childbirth and parenting education classes

Women's care

We are proud to provide an array of services to meet the unique health care needs of women of all ages. From breast and bone health, to maternity and children's care, to gynecological surgeries, Memorial Hermann Sugar Land is committed to delivering compassionate and comprehensive, award-winning care to women throughout their lives. Our affiliated physicians utilize the latest techniques and technologies to perform a wide range of inpatient and outpatient surgical procedures, including minimally invasive robotic surgery. Our goal is to offer our patients a positive, seamless patient experience.

NewStart™ Surgical weight and medical weight management programs

At Memorial Hermann NewStart™, we understand the science behind weight loss and maintenance and the support you need to succeed. We start by determining the root cause of your inability to lose weight or to maintain a healthy weight. Then we'll work with you to design a program tailored specifically to your needs. Along the way, we'll provide the support you need, from insurance approvals to education and counseling.

Within the NewStart program, our Care Concierge is available throughout your weight loss journey to orient you to the program, assist you with scheduling appointments and get you answers to your questions.

We offer both surgical weight loss and medical weight management programs. Our goal is to help you find the best solution for you, so that you can achieve and maintain a healthy weight for the rest of your life.

Heart and Vascular services

Board-certified diagnostic, interventional and electrophysiology cardiologists affiliated with Memorial Hermann Sugar Land work with a dedicated staff of caregivers to offer prevention, diagnostic treatment and interventional procedures for a spectrum of heart-related conditions. In our two integrated cardiac catheterization labs, we can identify patients with heart disease who require specialized treatment. Our program includes noninvasive and invasive cardiology, cardiac electrophysiology and peripheral invasive radiology. If a higher level of care is needed, patients, including heart attack patients, can be stabilized at Memorial Hermann Sugar Land and quickly transported via Memorial Hermann Life Flight® to other Memorial Hermann facilities.

Neuroscience services

The neuroscience program at Memorial Hermann Sugar Land brings together a collaborative group of affiliated, board-certified neurologists and neurosurgeons, supported by a highly trained, specialized and dedicated clinical staff.

Our experienced specialists provide care for:

- Neck and back pain
- Spinal fractures
- Herniated disc
- Spinal cord compression
- Spinal stenosis
- Carpal tunnel syndrome
- Stroke
- Cerebrovascular disorders
- Migraines and headaches
- Epilepsy and seizure disorders
- Dementia and neurocognitive disorders
- Multiple sclerosis
- Neuromuscular disease

In collaboration with Mischer Neuroscience Associates, the Telemedicine Program at Memorial Hermann Sugar Land enables top affiliated neurologists to observe patients remotely and assist with treatment from any location. Patients gain real-time access to unparalleled stroke care and leading neurological expertise around the clock, all from the familiar comfort and life-saving accessibility of their own community hospital.

Primary Stroke Center

Our hospital has received The Joint Commission Gold Seal of Approval™ as a Primary Stroke Center which signifies that Memorial Hermann Sugar Land provides

critical elements to improve patient outcomes and that the quality of care provided is effectively managed to meet the unique and specialized needs of stroke patients.

Oncology services

Patients at Memorial Hermann Sugar Land have access to a multidisciplinary team of affiliated oncology specialists, which may include a surgeon, medical oncologist, radiation oncologist and radiologist, depending on their disease. These specialists work together at bi-weekly cancer conferences to review and develop individualized treatment plans for each patient. In addition, affiliated plastic surgeons, physical therapists and palliative care specialists are available if needed. Memorial Hermann Health System offers the entire continuum of cancer care: education, prevention, screening, diagnosis, treatment, survivorship and rehabilitation.

Orthopedics and Sports Medicine

Part of Memorial Hermann | Rockets Orthopedics, our dedicated multidisciplinary orthopedic care team includes specialty trained nurses, rehabilitation specialists, and affiliated physicians, who provide non-surgical and minimally invasive procedures, surgery and rehabilitation for muscle, joint and bone injuries and abnormalities. As part of patient-centered care, therapists perform comprehensive evaluations to determine appropriate treatment to individually address each patient's goals.

Memorial Hermann | Rockets Sports Medicine Institute

The full-service clinic offers a comprehensive range of sport-specific care for athletes of all levels and ages by delivering individualized orthopedic and customized treatment and training programs from a team consisting of experienced sports-medicine trained affiliated orthopedic surgeons, physical therapists, nutritionists, exercise physiologists, biomechanics experts, strength and conditioning coaches, and athletic trainers.

Our team of specialists provides leading-edge care for athletes of all ages in:

- Orthopedic injury prevention and evaluation
- Orthopedic surgery, including minimally invasive options
- Post-injury rehabilitation & physical therapy
- Sports concussion management
- Strength & conditioning training
- Performance testing
- Sports nutrition

Surgical services

Our affiliated physicians utilize the latest techniques and technologies to perform a wide range of inpatient and outpatient surgical procedures, including minimally invasive robotic surgery. Our goal is to offer our patients a positive, seamless patient experience—before, during and following surgery.

Imaging Center

Memorial Hermann Sugar Land offers the latest in imaging technology and screenings, including computed tomography (CT), fluoroscopy, magnetic resonance imaging (MRI) (1.5T and 3T, large bore), ultrasound and X-ray.

Breast Care Center

The Breast Care Center at Memorial Hermann Sugar Land offers a complete range of preventive and diagnostic breast health services by affiliated board-certified breast radiologists, from annual screening mammograms to breast MRI and ultrasound—all close to home.

Services include:

- Screening and diagnostic mammographies
- Bone density screenings
- Breast MRI and MRI-guided biopsies
- Breast ultrasounds
- Stereotactic breast biopsies
- Ultrasound-guided biopsies

Wound Care

Our Wound Care program provides a comprehensive approach to treating patients with non-healing wounds. Patients are offered the most efficient and effective treatment options available today. The experienced team features affiliated physicians, nurses and technicians with advanced training in wound care and hyperbaric oxygen (HBO) therapy. Patients are examined and evaluated for all possible physical conditions, such as diabetes, that could interfere with proper healing. The care team follows evidence-based clinical pathways to determine why wounds are not healing. Individual treatment plans are developed using the most effective technologies available to optimize healing and relief for patients.
